## UNITED STOCKYARDS, INDIANAPOLIS.

June 27.—Cattle—Receipts, 1,200; shipments,  
400. There is a little increase to report in  
the marketing of cattle, the total thus far  
this week being nearly 200 larger than the  
same time last week and 400 larger than the  
corresponding time a year ago. The  
receipts to-day were fully as large as  
last week, but about 100 smaller than a year  
ago. There was probably a larger proportion  
of good cattle than heretofore this week  
and therefore the offerings were more  
attractive to buyers. Some of the leading  
shippers, who have been practically out  
of the market for two days, were again in  
evidence, and they furnished competition  
that stimulated the market. From sources  
abroad, and the result was an active mar-  
ket for all good fat stock at fully steady  
to firm prices compared with those current  
recently. Full loads of cattle sold higher  
than they have heretofore this season  
and the extreme price was the highest it  
has been for twenty years. The demand  
for ordinary cattle of all kinds was no  
better than it has been and it is possible  
they were more neglected because of the  
better supply of good stock. It was diffi-  
cult to effect sales and prices as usual  
were very unsatisfactory. There were com-  
paratively few country buyers here for  
stockers and feeding cattle, consequently  
the market was extremely dull and hardly  
any show the true condition of affairs.

## LITTLE DOING IN STOCKS

RESULT OF THE DAY'S TRADING IS  
A SLIGHT DECLINE.

## Market Dull and Generally Heavy—

The Few Movements Without Ap-  
parent Cause—Money Situation.

NEW YORK, June 27.—To-day's stock  
market fell into profound neglect. Except  
for the dealings in one or two stocks which  
were selected by the supporters of the  
market for their sustaining effect, there  
was almost nothing doing. St. Paul was  
again the leader, and there was a spurt in  
Illinois Central during the day which had  
no other explanation. Missouri Central  
continued in good demand, but its rise did  
not extend to a point at any time. The in-  
dustrials were weak in spots, but were  
more neglected than railroads. The pass-  
ing of the dividend on Colorado Fuel caused  
a drop of four points in that stock on ac-  
count of the dividend on a net loss of only  
14. The passing of the dividend on the  
preferred was reflected in the movement  
of those stocks, the preferred declining an  
extreme 3% and closing at a recovery of  
14. Amalgamated Copper was under pres-  
sure again, but met support at about 63, as  
on the previous decline. The market closed  
off on the late dealings and closed heavy  
and below the best in all cases. Loans  
and the carrying over until Monday, and  
the rise in the rate to above 3 per  
cent. in the late dealings indicated some  
contraction of supplies. The week's move-  
ment of currency, taking in the subse-  
quent operations, indicate a cash gain by  
the banks of upwards of \$2,000,000. During  
the week there has been a payment at Bal-  
timore, on account of the Western Mary-  
land purchase, subscriptions here to the  
Metropolitan street-railway bond issue and  
to the New York city bond issue, besides  
various other requirements. It is probable  
that preparations have been making, also,  
for the July disbursements of dividends  
and interest. A further expansion of the  
loan account of the banks would not be  
unexpected, therefore, when to-morrow's  
bank statement appears. The approach of  
the month of July has been a factor in  
speculation. The holiday in London, per-  
haps, contributed to the dullness, but the  
factor in the situation was the cessation of  
trading in the grain market for the first  
time since the outbreak of the war. The  
speculative influence of the withdrawal of  
gold. Considerable concern was  
felt over the reports of rain over the  
Texas cotton belt. The speculative in-  
fluences in the grain markets made in-  
ferences as to the condition of the crop.  
Wheat, however, the coal miners' strike was  
neglected, and the coal miners' strike was  
not a visible influence in the market.  
There was a falling of the railroad  
stocks that was alleged to be for invest-  
ment in anticipation of the funds to be  
subscribed after the first of the month.  
There was very little doing in the bond  
market, and the movement of prices was  
irregular. The market for the new  
\$100,000 United States bonds declined 1/2  
and the new four 1/2 on the last call.  
Following are the day's share sales and  
the recorded price closing:
